**NUMBER ONE AUTOMATIC DEFRAGMENTER CELEBRATES 19 YEARS
OF ELIMINATING SYSTEM SLOWS**

DISKEEPER RECEIVES 231 AWARDS IN 2004 ALONE

East Grinstead, West Sussex, April 20, 2005 – Executive Software has announced the nineteenth anniversary of Diskeeper® -- The number one automatic defragmenter™ with over 16 million licenses sold. The last quarter of 2004 marked highest-ever quarterly earnings for Diskeeper and it is on track for a highest ever revenue in 2005. Diskeeper, originally released in 1986 for the Digital VMS platform, is the best selling automatic defragmenter for Windows in Corporate and Government sites.

Diskeeper is the technology leader and the most highly awarded system tool of its kind -- with a record 231 awards and editor accolades received in 2004 alone. Diskeeper is the industry leader, and consistently employs the most cutting-edge technology such as Smart Scheduling and I/O Smart technology to allow users seamless daily defragmentation of their systems. The revolutionary Terabyte Volume Engine is the first and only defragmentation engine designed specifically to keep up with the defragmentation needs of mission-critical and enterprise-level servers.

Robert Thomson, a Computer Systems Technical Director in Florida, said: *"I have been using Diskeeper ever since it came out for VAX/VMS about 19 years ago. Now it's in service on our large Windows file servers and all of our desktops. Our systems are very stable, with 99.9% uptime the last time we measured it."*

"We congratulate Executive Software on their 19th Anniversary of Diskeeper. Intel recognizes the importance of fragmentation and Diskeeper provides a robust solution, which is why Diskeeper is included within Intel® Desktop Utilities which ships with our Intel® Desktop Boards" said Joel Christensen, Director of Marketing, Intel Desktop Board Operations.
